Ahmedabad, Gujarat, India

EDUCATION

SAL Institute of Technology & Engineering Research

Ahmedabad, India

Bachelor of Engineering in Computer Science – CGPA: 8.8/10.0

July 2023 – July 2027

- Ranked in top percentile of department with consistent academic performance across all semesters
- Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, System Design, OOP with Java

EXPERIENCE

Java Software Developer

December 2024 – May 2025

Lumynixx Technology

Remote

- Developed scalable backend services using **Java** and **Spring Boot**, serving 10,000+ concurrent users with 99.9% uptime
- Built responsive frontend interfaces with **AngularJS**, improving page load times by 40% through optimization
- Implemented RESTful APIs with comprehensive error handling, reducing API response time by 35%
- Collaborated in Agile sprints, delivering features 20% faster than projected timelines

Management Committee Member

July 2023 – Present

Indian Society for Technical Education (ISTE)

Ahmedabad, India

- Led technical workshops on web development and competitive programming for 200+ students
- Organized hackathons and coding competitions, increasing student participation by 150%

TECHNICAL PROJECTS

GearGuard: Smart Maintenance System | *React, Flask, MySQL, REST API*

- Built full-stack maintenance platform with centralized asset management, reducing equipment downtime by 30%
- Implemented Kanban and Calendar views with drag-and-drop functionality using React and Material-UI
- Designed normalized database schema handling 1000+ assets with sub-100ms query response times

Blockchain Blue Carbon Registry | *Blockchain, IPFS, React Native, Smart Contracts*

- Developed decentralized platform for NGOs to create tamper-proof records of carbon restoration projects
- Integrated satellite validation APIs with Merkle tree anchoring on blockchain for data integrity
- Built cross-platform mobile app with React Native supporting photo uploads, GPS tracking, and drone footage

NeuraAPI: AI-Powered Service | *Python, Flask, AI/ML, REST API*

- Engineered RESTful API delivering real-time AI services for text generation and summarization
- Optimized to support 500+ concurrent requests with rate limiting and caching strategies

Bug Tracking System | *Java, System Design, MySQL, MVC*

- Designed enterprise bug tracking system in Java using OOP principles and design patterns
- Implemented role-based access control (RBAC) for secure multi-user collaboration

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, C, SQL, HTML/CSS

Frameworks: React, Angular, Next.js, Node.js, Express.js, Flask, Spring Boot, Tailwind CSS

Tools & Databases: MySQL, MongoDB, PostgreSQL, Git/GitHub, Docker, REST APIs, IPFS

Core Competencies: Data Structures & Algorithms, System Design, OOP, Multithreading, Blockchain, Agile/Scrum, Microservices

Certifications: System Design, Networking Basics, Generative AI Mastermind

ACHIEVEMENTS

Maintained **8.8/10.0 CGPA** with consistent performance, demonstrating strong academic foundation in CS fundamentals

Active open-source contributor with portfolio showcasing 6+ production-ready full-stack applications

Proficient in competitive programming with expertise in algorithmic problem-solving and optimization techniques
